The ASC has met twice (10th June, 8th September) to consider changes and amendments to Section A of the syllabus. It has been supported in this work by a teachers' working party. The draft review of this section is presented for SACRE to consider and approve. The section on assessment is being reviewed by Lat Blaylock and once complete will be presented to the ASC. The next stage is to review the remaining sections of the syllabus and this work is in progress. It is hoped to present the completed syllabus to SACRE during the spring term meeting after which it will be made available to schools.
