Quarterly Reporting Template - Guidance

Notes for Completion

The data collection template requires the Health & Wellbeing Board to track through the high level metrics and deliverables from the Health & Wellbeing Board Better Care

The completed return will require sign off by the Health & Wellbeing Board.

A completed return must be submitted to the Better Care Support Team inbox (england.bettercaresupport@nhs.net) by midday on 28th August 2015

This Excel data collection template for Q1 2015-16 focuses on budget arrangements, the national conditions, payment for performance, income and expenditure to and from the fund, and performance on local metrics. It also presents an opportunity for Health and Wellbeing Boards to register interest in support. Details on future data collection requirements and mechanisms will be announced ahead of the Q2 2015/16 data collection.

To accompany the quarterly data collection Health & Wellbeing Boards are required to provide a written narrative into the final tab to contextualise the information provided in this report and build on comments included elsewhere in the submission. This should include an explanation of any material variances against planned performance trajectories as part of a wider overview of progress with the delivery of plans for better care.

The data collection template consists of 9 sheets:

Validations - This contains a matrix of responses to questions within the data collection template.

- 1) Cover Sheet this includes basic details and tracks question completion.
- 2) Budget arrangements- this tracks whether Section 75 agreements are in place for pooling funds.
- 3) National Conditions checklist against the national conditions as set out in the Spending Review.
- 4) Non-Elective and Payment for Performance this tracks performance against NEL ambitions and associated P4P payments.
- 5) Income and Expenditure this tracks income into, and expenditure from, pooled budgets over the course of the year.
- 6) Local metrics this tracks performance against the locally set metric and locally defined patient experience metric in BCF plans.
- 7) Understanding support needs this asks what the key barrier to integration is locally and what support might be required.
- 8) Narrative this allows space for the description of overall progress on plan delivery and performance against key indicators.

This sheet contains all the validations for each question in the relevant sections.

All validations have been coloured so that if a value does not pass the validation criteria the cell will be Red and contain the word "No" and if they pass validation they will be coloured Green and contain the word "Yes".

1) Cover Sheet

On the cover sheet please enter the following information:

The Health and Well Being Board

Who has completed the report, email and contact number in case any queries arise

Please detail who has signed off the report on behalf of the Health and Well Being Board.

Question completion tracks the number of questions that have been completed, when all the questions in each section of the template have been completed the cell will turn green. Only when all 8 cells are green should the template be sent to england.bettercaresupport@nhs.net

2) Budget Arrangements

This plays back to you your response to the question regarding Section 75 agreements from the 2014-15 Q4 submission and requires 2 questions to be answered. Please answer as at the time of completion. If you answered 'Yes' previously you can selection 'Not Applicable' this time.

If your previous submission stated that the funds had not been pooled via a Section 75 agreement, can you now confirm that they have? If the answer to the above is 'No' please indicate when this will happen

3) National Conditions
This section requires the Health & Wellbeing Board to confirm whether the six national conditions detailed in the Better Care Fund Planning Guidance are still on track to be

It sets out the six conditions and requires the Health & Wellbeing Board to confirm 'Yes', 'No' and 'No - In Progress' that these are on track. If 'No' or 'No - In Progress' is selected please provide a target date when you expect the condition to be met. Please detail in the comments box what the issues are and the actions that are being taken to meet the condition.

'No - In Progress' should be used when a condition has not been fully met but work is underway to achieve it by 31 March 2016. Full details of the conditions are detailed at the bottom of the page.

4) Non-Elective and Payment for Performance

This section tracks performance against NEL ambitions and associated P4P payments. The latest figures for planned activity and costs are provided along with a calculation of the payment for performance payment that should have been made for Q4. Three figures are required and one question needs to be answered:

Input actual Q1 2015-16 Non-Elective performance (i.e. number of NELs for that period) - Cell L12

Input actual value of P4P payment agreed locally - Cell D23

If the actual payment locally agreed is different from the quarterly payment taken from above please explain in the comments box Input actual value of unreleased funds agreed locally

This section also requires indication of the area of spend that unreleased funds have been spent on for Q4 and Q1 using a drop-down list. If no funds were left unreleased then 'Not Applicable' should be selected.

5) Income and Expenditure

This tracks income into, and expenditure from, pooled budgets over the course of the year. This requires provision of the following information:

Planned and forecast income into the pooled fund for each quarter of the 2015-16 financial year

Confirmation of actual income into the pooled fund in Q1

Planned and forecast expenditure from the pooled fund for each quarter of the 2015-16 financial year

Confirmation of actual expenditure into the pooled fund in Q1

Figures should reflect the position by the end of each quarter. It is expected that planned income and planned expenditure figures for Q4 2015-16 should equal the total pooled budget for the Health and Wellbeing Board.

There is also an opportunity to provide a commentary on progress which should include reference to any deviation from plan.

6) Local metric

This tab tracks performance against the locally set metric and locally defined patient experience metric submitted in approved BCF plans. In both cases the metric is set out as defined in the approved plan for the HWB and the following information is required for each metric:

Confirmation that this is the same metric that you wish to continue tracking locally

Confirmation of planned performance for each quarter of 2015-16 (against the metric being tracked locally - whether the same as within your plan or not)
Confirmation of actual performance for Q1 2015-16 (against the metric being tracked locally - whether the same as within your plan or not)
Commentary on progress against the metric and details of any changes to the metric including reference to reasons for changing

7) Understanding Support Needs

This asks what the key barrier to integration is locally and what support might be required in delivering the six key aspects of integration set out previously. This section builds upon the information collected through the BCF Readiness Survey in March 2015. HWBs are asked to:

Confirm which aspect of integration they consider the biggest barrier or challenge to delivering their BCF plan

Confirm against each of the six themes whether they would welcome any support and if so what form they would prefer support to take

There is also an opportunity to provide comments and detail any other support needs you may have which the Better Care Support Team may be able to help with.

8) Narrative

In this section HWBs are asked to provide a brief narrative on overall progress in delivering their Better Care Fund plans at the current point in time with reference to the information provided within this return.

Budget Arrangements

Selected Health and Well Being Board:

Lincolnshire

Data Submission Period:

Q1 2015/16

Budget arrangements

Have the funds been pooled via a s.75 pooled budget?

If it has not been previously stated that the funds had been pooled can you now confirm that they have?

If the answer to the above is 'No' please indicate when this will happen (DD/MM/YYYY)

Footnotes:

Source: For the S.75 pooled budget question which is pre-populated, the data is from the Q4 data collection previously filled in by the HWB.

5) Is an agreement on the consequential impact of changes in the acute sector in place?	Yes		Clear metrics on expected bed reductions agreed through the Lincolnshire Recovery Board with NHSE and TDA

(National conditions - Guidance

One Spending Round established six national conditions for access to the Fund:

1) Plans to be jointly agreed

The Better Care Fund Plan, covering a minimum of the pooled fund specified in the Spending Round, and potentially extending to the totality of the health and Care spend in the Health and Wellbeing Board area, should be signed off by the Health and Wellbeing Board is less than 1 and 1 and

2) Protection for social care services (not spending)

Local areas must include an explanation of how local adult social care services will be protected within their plans. The definition of protecting services is to be agreed locally. It should be consistent with 2012 Department of Health guidance to NHS England on the funding transfer from the NHS to social care in 2013/14: https://www.gov.uk/government/uploads/system/uploads/syst

3) As part of agreed local plans, 7-day services in health and social care to support patients being discharged and prevent unnecessary admissions at weekends

Local areas are asked to confirm how their plans will provide 7-day services to support patients being discharged and prevent unnecessary admissions at weekends. If they are not able to provide such plans, they must explain why. There will not be a nationally defined level of 7-day services to be provided. This will be for local determination and agreement. There is clear evidence that many patients are not discharged from hospital at weekends when they are clinically fit to be discharged because the supporting services are not available to facilitate it. The recent national review of urgent and emergency care sponsored by Sir Bruce Keogh for NHS England provided guidance on establishing effective 7-day services within existing resources.

4) Better data sharing between health and social care, based on the NHS number

The safe, secure sharing of data in the best interests of people who use care and support is essential to the provision of safe, seamless care. The use of the NHS number as a primary identifier is an important element of this, as is progress towards systems and processes that allow the safe and timely sharing of information. It is also vital that the right cultures, behaviours and leadership are demonstrated locally, fostering a culture of secure, lawful and appropriate sharing of data to support better care.
Local areas should:

- . confirm that they are using the NHS Number as the primary identifier for health and care services, and if they are not, when they plan to
- confirm that they are pursuing open APIs (i.e. systems that speak to each other); and
- ensure they have the appropriate Information Governance controls in place for information sharing in line with Caldicott 2, and if not, when they plan for it to be in place.

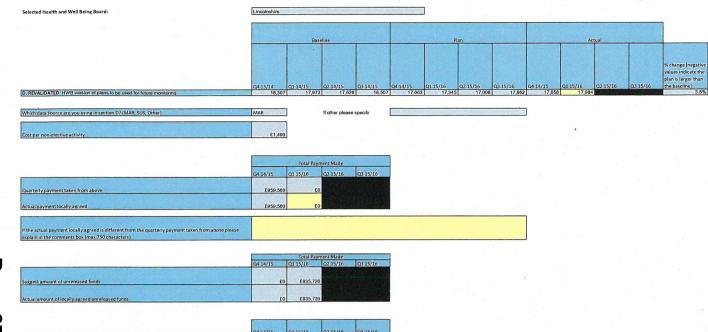

NHS England has already produced guidance that relates to both of these areas. (It is recognised that progress on this issue will require the resolution of some Information Governance issues by DH)

5) Ensure a joint approach to assessments and care planning and ensure that, where funding is used for integrated packages of care, there will be an accountable professional

Local areas should identify which proportion of their population will be receiving case management and a lead accountable professional, and which proportions will be receiving self-management help - following the principles of person-centred care planning. Dementia services will be a particularly important priority for better integrated health and social care services, supported by accountable professionals. The Government has set out an ambition in the Mandate that GPs should be accountable for co-ordinating patient-centred care for older people and those with complex needs.

6) Agreement on the consequential impact of changes in the acute sector

Local areas should identify, provider, by-provider, what the impact will be in their local area, including if the impact goes beyond the acute sector. Assurance will also be sought on public and patient and service user engagement in this planning, as well as plans for political buy-in. Ministers have indicated that, in line with the Mandate requirements on achieving parity of esteem for mental health, plans must not have a negative impact on the level and quality of mental health services.

Footnotes:

Source: For the Baselines, Plans, data sources, locally agreed payment and cost per non-elective activity which are pre-populated, the data is from the Better Care Fund Revised Non-Elective Targets - Q4 Playback and Final Re-Validation of Baseline and Plans Collection previously filled in by the HWB. This includes all data received from HWBs as at 10am on 6th August 2015. Please note that the data has not been cleaned and limited validation has been undertaken.
