

Businesses are supported to grow

Businesses are supported to grow

Sustaining and growing the business and economy

The purpose of this commissioning strategy is for businesses in our most important sectors to be developed, to encourage investment in Lincolnshire and help to train people so that there is a skilled workforce to whom businesses can offer quality jobs.

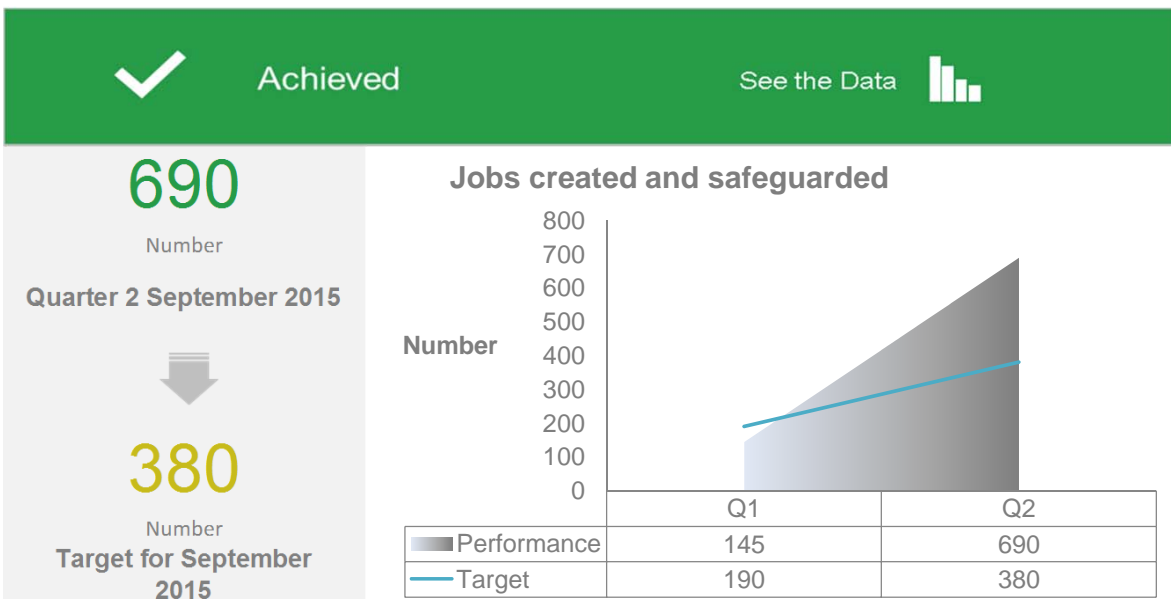

Outcome

Jobs created as a result of the Council's support

Measure

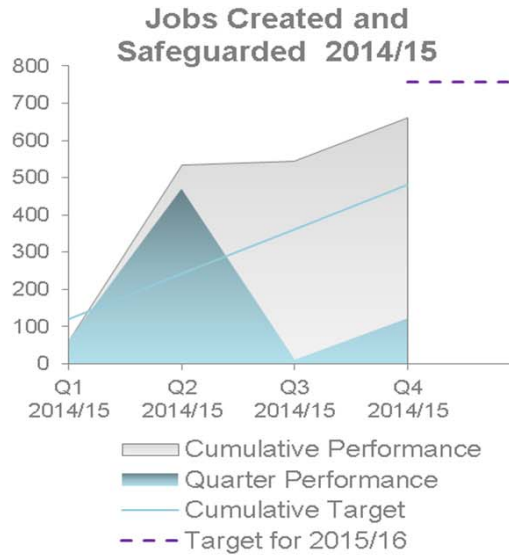

Jobs created and safeguarded

Number of jobs created and safeguarded as a result of the Council's support.

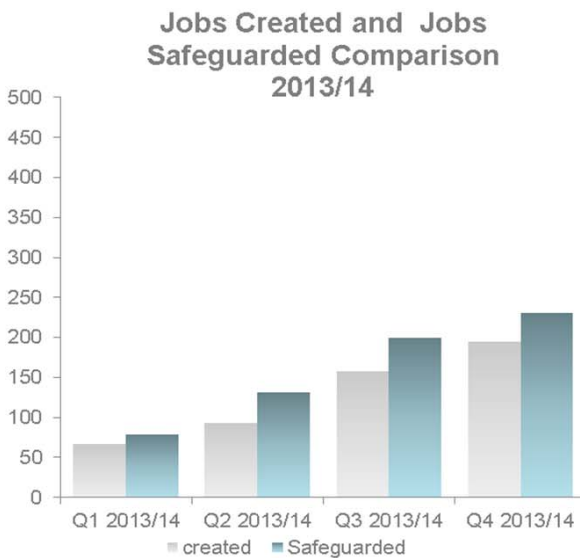

We helped major manufacturing businesses and SMEs to create jobs, and these are recorded in the actual figure for this quarter. In addition, our surveys show that employers continue to expect to create vacancies and therefore we are not only ahead of our quarter 2 target but forecast to exceed our year end target.

About the target

The council commissions a series of programmes which help business leaders to grow their business. This includes the building of business sites and premises for selling or renting to businesses which are growing. We do this in order to create jobs in the county, and the jobs are counted in this target.

About the target range

About benchmarking

This measure is local to Lincolnshire and therefore is not benchmarked against any other area.
