

Written Statement submitted by Councillor Tony Bridges, Louth Rural North
Electoral Division in connection with DMMO No. 378 (Ludborough)

However, I do believe the Parish Council are right in this matter and I also believe that the Solar Farm WILL have a significant impact and effect on the landscape of the area and its environs. The area is in the Lincolnshire Wolds, as signposted on the A16, (which as we all know is an area of outstanding natural beauty) and having done some investigative work, there are no other solar farms in England to my knowledge, that have been given planning permission within an area of outstanding natural beauty. If this application were to be given planning permission, I am sure BBC Look North and the wider BBC News will report on this matter. Indeed, as I am in the media industry, I shall make sure the BBC know about this application and that the local planning authority have recommended approval.
