

**Open Report on behalf of Andrew Crookham, Executive Director - Resources**

Report to:	<b>Flood and Water Management Scrutiny Committee</b>
Date:	<b>20 February 2023</b>
Subject:	<b>Flood and Water Management Scrutiny Committee Work Programme</b>

**Summary:**

This item enables the Committee to consider and comment on the content of its work programme to ensure that scrutiny activity is focused where it can be of greatest benefit. Members are encouraged to highlight items that could be included for consideration in the work programme.

The work programme will be reviewed at each meeting of the Committee to ensure that its contents are still relevant and will add value to the work of the Council and its partners.

**Actions Required:**

The Flood and Water Management Scrutiny Committee is invited to: -

- (1) review, consider and comment on the work programme; and,
- (2) highlight for discussion any additional scrutiny activity which could be included for consideration in the work programme; and note the terms of reference of the Flood and Water Management Scrutiny Committee, as agreed by the County Council.

**1. Background**

Overview and Scrutiny should be positive, constructive, independent, fair, and open. The scrutiny process should be challenging, as its aim is to identify areas for improvement. Scrutiny activity should be targeted, focused and timely and include issues of corporate and local importance, where scrutiny activity can influence and add value.

Overview and scrutiny committees should not, as a rule, involve themselves in relatively minor matters or individual cases, particularly where there are other processes, which can handle these issues more effectively.

All members of overview and scrutiny committees are encouraged to bring forward important items of community interest to the committee whilst recognising that not all items will be taken up depending on available resource.

## 2. Work Programme

<b>20 FEBRUARY 2023</b>	
<b>Item</b>	<b>Contributor</b>
<b>1. Floods Team Update (inc. S19 Investigations &amp; Surface Flooding)</b>	Matthew Harrison, Flood Risk Manager
