

# Lincolnshire JSNA

Published March 2023

# What is the JSNA?

- Joint Strategic Needs Assessment
- Ongoing Assessment of Current & Future Health Needs
- Evidence Repository
- Underpins Local Decisions and Planning
- Statutory Requirement

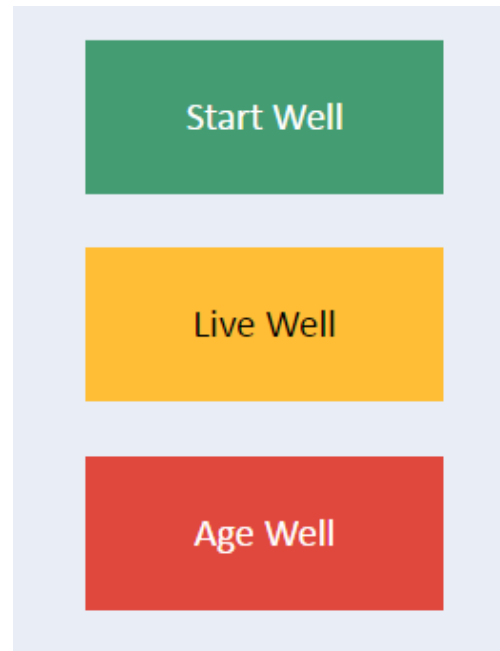

# What's new for the 2023 JSNA?

- Redeveloped JSNA
- Life course approach
- Concise, user friendly, newly designed platform
- Interactive data reporting for all topics
- Automated data refreshes
- All hosted on a bespoke and newly launched website – the Lincolnshire Health Intelligence Hub

# The Life Course Approach

The JSNA Factsheets are divided into three Life Courses

Start Well is all about our children and young people in Lincolnshire, aged 0-19 years old. It reiterates the importance of affording every child the best start in life and the opportunity to grow, live and thrive. Factors before and during pregnancy, during the early years, and throughout childhood can impact health and wellbeing in adulthood.

**Key points**

- The main causes of morbidity amongst children and young people (CYP) in Lincolnshire are dominated by mental health and behavioural problems rather than physical health issues. Mental health and emotional wellbeing in CYP is one of seven priorities within the Lincolnshire Joint Health & Wellbeing Strategy
- The causes of mortality in younger children (birth related, genetic and infectious disease) differ from those in teenagers (injury, self-harm and cancer)
- CYP were disproportionately affected by the social, educational and economic impacts of Covid-19. Further details of this can be found in Lincolnshire's Director of Public Health Annual Report 2021

- Breastfeeding
- Children in Care
- Children in the Criminal Justice System
- Early Years Development
- Healthy Weight
- Immunisation
- Mental Health & Emotional Wellbeing
- Oral Health
- Physical Activity
- Pregnancy & Maternal Health
- Schools & Achievement
- Special Education Needs and Disability
- Tackling Tobacco Use
- Young Carers

- Other Useful Resources**
- Child & Maternal Health Profiles
  - Local Authority Interactive Tool (LAIT)
