

Appendix E Proposal to expand Spalding Primary School

	19	23	7	26	12	13	
Point of View	Supports Proposal	Against Proposal	Not For or Against	Traffic	New School	School Site	Other comments/Notes
Parent/Carer	Y			Y			Agree that more spaces needed; assume there will be more staff. It will benefit local community. Would like speed bumps and safe places to cross.
Local Resident	Y			Y			Favour expansion of the school but traffic needs dealing with - yellow lines down one side of Cathedral Drive extra parking at school, mini roundabout
	Y			Y			Governors' Response
Local Authority	Y					Y	Development must take into consideration childcare sufficiency - level of provision must be maintained and must meet OfSTED Childcare regulations
Teacher/School Staff	Y						
Other	Y						Grandparents of pupils
	Y						
Parent/Carer	Y						Giving more school places will be better at the rate Great Britain is growing especially with outside influences coming here to settle.
Parent/Carer	Y						it is going to be something very good for the kids and the school. The improvement of something is good.
Local Resident	Y						Increase in school numbers does not justify new school. Provided that the school site is large enough then expansion is the most sensible.
Governor	Y						
Parent/Carer	Y						
Parent/Carer	Y						
Governor	Y						Based on the information provided it seems logical to add additional accommodation
Parent/Carer	Y						I have a son who attends the playgroup and I want him to attend the nursery next year. I am within walking distance of the school so parking is not an issue.
Other	Y						There is an obvious demand for places
Parent/Carer	Y						
Parent/Carer	Y						
Other	Y						

Parent/Carer		Y		Y	Y	Y	School has enough children, playground is not big enough, the builders promised a new school and a new surgery, Spalding cannot cope with anymore migrant workers, if there are no school places, they will not be able to live here.
Local Resident		Y		Y	Y	Y	630 too big. Pupils already have too little space outdoors. Did LCC really give away a third of the land originally allocated for this school? Opposed for educational, social and practical reasons. Proposal based on economic necessity.
Parent/Carer		Y		Y	Y	Y	Feel the school has warm friendly atmosphere; this will be lost.
Local Resident		Y		Y	Y	Y	
Local Resident		Y		Y	Y	Y	Cycling would be dangerous. Buildings taking playing fields - children need space for play and exercise. Supposed to be new school, doctors' surgery, community centre etc on new development. 600+ is too big for happy primary school.
Local Resident		Y		Y	Y	Y	Children who live within one mile already get ferried to the school.
Local Resident		Y		Y	Y	Y	School already larger than planned. Wygate Park has planning consents and developers money for new school. Children would be able to walk to new school. Traffic., cycling on the pavement. Extended current school will cause long term problems.
Local Resident		Y		Y	Y		Drive used as a turning area, children swing on gates damaging hinges, cannot use footpath (partially sighted) and trapped in house, requests ignored. Constantly picking up sweet papers and chewing gum. Why not building new school on Wygate Park?
Local Resident		Y		Y	Y		School has had to be closed dues to drainage problems. Has consideration been given to the effect of an additional 210 children and attendant staff.
Local Resident		Y		Y	Y		Site will be overdeveloped. Safety issues already, these will increase. Having additional playing fields and changing rooms off site is one of the most ridiculous things I have heard of. Stop penny pinching and build the promised new school.
Local Resident		Y		Y	Y		s106 money allocated for new school, not expansion. Bad parking, abuse from drivers, Children and parents cycle on pavement, litter, staff park on the road. School graded by OfSTED as only satisfactory. School only scored satisfactory OfSTED.
Local Resident		Y		Y	Y		There is no guarantee children will come from within 1 mile. Should build new school on Wygate Park.
Parent/Carer		Y		Y		Y	School grounds and existing facilities not enough to cope.
Local Resident		Y		Y		Y	Infrastructure not good enough, Parking bad already. Car parking for staff
Local Resident		Y		Y			Parents challenged about parking are abusive. No access for Fire Brigade or Ambulance. Police do not respond to illegal parking. Foreign cars; no tax or insurance but free education. Litter never cleared, road sweeping does no exist. Parents travel from Pinchbeck and beyond, not just 1 mile limit. Young children left unaccompanied, parents driving whilst on phone.
Local Resident		Y		Y			
Local Resident		Y		Y			
Local Resident		Y		Y			Borders construction access - construction every summer, garden virtually unusable. Yellow lines would be useful if observed.
Local Resident		Y		Y			Abuse from car users, litter, no police presence
Local Resident		Y		Y			Parents are abusive over parking issues. Cannot access own property. Obviously aware which is why not having open meeting.
Parent/Carer		Y				Y	School will be too large, son likes size of classes now, pastoral care will suffer, number of children will be overwhelming. Daughter at Wygate Nursery and will not go to Primary if changes go ahead.

Parent/Carer		Y					
Parent/Carer		Y					
Local Resident			Y	Y		Y	School was not big enough when originally built
Local Resident			Y	Y			Support staff and parent helpers parking all day outside residential properties
Parent/Carer			Y	Y			Need more places and Spalding Primary ideal for this
Parent/Carer			Y			Y	Concerned about size of school field/playground - will it be big enough? Also suggests that a canteen is built so children do not have to use the hall to eat.
Parent/Carer			Y				
Local Authority			Y				
			Y				Governor Response - trying to expand and existing school is a good option. A new school would attract pupils from wider area disturbing already existing schools. Have all option been explored such as addressing difficult PANs such as 45 at Monkhouse?
