

**APPENDIX C**

**Written Responses made in Consultation Period on the proposed expansion of Isaac Newton Primary School**

Point of View	Supports Proposal (4)	Against Proposal (0)	Not For or Against (1)	Other comments/Notes
Governor and Schoolstaff	y			Rising pupil numbers mean more money for the school and building work creates a good feeling for staff and pupils and raises the school's profile in the community. The proposals can only be good for the long term future of the school
Local authority			y	No objections to any of the proposals
parent	y			
parent	y			Disappointed that nursery will not be reopening. Consideration must be given to impact of building work - will all Reception children have to revert to using 1 door as this is totally impractical? Also a canopy or shelter needs to be provided as these are the youngest children in the school and are the ones that have to stand outside at home time whatever the weather and with no shelter.
Primary school	y			Proposals seem sound and reflect provision for anticipated future needs
