

**Open Report on behalf of Dr Tony Hill, Director of Public Health**

Report to:	<b>Children's &amp; Young People Scrutiny Committee</b>
Date:	<b>20 July 2012</b>
Subject:	<b>Joint Strategic Needs Assessment Overview Report – Annual Update 2012</b>

**Summary:**

The 2011 Joint Strategic Needs Assessment (JSNA) Overview Report made the commitment to producing annual updates to be viewed alongside the most recent data sets. The first of these documents has recently been produced in draft (Appendix A). It aims to provide an overview of key developments since the 2011 report and needs to be read alongside the 2011 JSNA Overview document (Appendix B).

**Actions Required:**

The Children's and Young Persons' Scrutiny Committee is asked to receive and consider this report and provide feedback to Carolyn Turner, Programme Officer, Public Health Directorate by 1 August 2012.

**1. Background**

As an online resource, the JSNA is now underpinned by almost 650 different data sets. The regularity with which these data sets are refreshed and updated varies according to the information in question.

The purpose of the annual update report is to provide a once-a-year summary of all of the new and updated data sets held on the JSNA web-site, looking at variations in performance and how this may or may not impact on JSNA priorities.

This report will also be used to summarise any other national and local updates which may impact on Lincolnshire's JSNA.

**2. Conclusion**

Whilst the process of reviewing JSNA data sets updated between June 2011 and June 2012 did not serve to highlight the need for any changes to current JSNA priorities, it did prove useful in terms of getting a birds-eye-view of how various elements of Public Health work is progressing using last year as a bench mark.
