

**Open Report on behalf of Keith Ireland, Chief Executive**

Report to: **Definitive Map and Statement of Public Rights of Way Sub-Committee**  
Date: **29 October 2018**  
Subject: **Appeal against the prioritisation of DMMO 399 – Mablethorpe and Sutton – Claimed bridleway and footpath between the ends of two sections of Marian Avenue**

**Summary:**

An appeal against the prioritisation of DMMO 399 – Mablethorpe and Sutton – Claimed bridleway and footpath between the ends of two sections of Marian Avenue

**Recommendation(s):**

That consideration is given to the appeal to upgrade the priority of the modification order cases.

## 1. Background

As Surveying Authority the County Council has a statutory duty to keep under continuous review the Definitive Rights of Way Map and Statement for Lincolnshire and to make orders to take account of events requiring the map to be modified. This is carried out by the processing of Definitive Map Modification Orders (DMMOs) which are either applied for by the public or initiated by the Authority on the discovery of evidence.

Highways & Traffic Guidance Note HAT33/3/11 sets out that such cases will be dealt with in order of receipt/initiation unless one or more of the eight “exception criteria” apply.

The criteria are as follows:

1. Where there is sustained aggression, hostility and ill feeling within a community that is causing severe disruption to the life of that community, and that in processing the case early there is a strong likelihood that this will reduce.
2. Where there is a significant threat to the route, likely to cause a permanent obstruction (e.g. a building, but not, for example, a locked gate or residential fencing).

3. Where there is, or has been, a finding of maladministration by the Local Government Ombudsman on a particular case and that in processing the case the County Council will discharge its duty to the Ombudsman's decision.
4. Where legal proceedings against the County Council are instigated or are likely to be instigated and it is possible that the Authority has a liability.
5. Where there is a risk to children on County Council owned property and land or where the claimed route would provide for a safer alternative route to a school, play area or other amenity for children.
6. Where there is a significant financial saving to the County Council (and therefore taxpayers) through the processing of an Order.
7. Where a new application is received that relies on evidence of a case already received or, if the new application forms part of or is adjoining to an existing claim, the new claim will be dealt with at the same time as the older application.
8. Where the route will significantly assist in achieving a Countryside and Rights of Way Improvement Plan Objective or Statement of Action.

The Parish Council as applicants for the modification order have appealed against the current priority of DMMO 399 being an application to add a claimed bridleway and footpath between the ends of two sections of Marian Avenue  
Appendix A is a brief case synopsis including the reasons for the appeal.

## **2. Conclusion**

That the applicant has made a valid appeal against the current prioritisation of the case which requires consideration by this sub-committee.

## **3. Consultation**

### **a) Scrutiny Comments**

This has not been considered by a scrutiny committee.

### **b) Executive Councillor Comments**

N/A

### **c) Local Member Comments**

This has been emailed to the Local Member.

### **d) Policy Proofing Actions Required**

#### 4. Appendices

These are listed below and attached at the back of the report	
Appendix A	Case Synopsis - Claimed bridleway and footpath between the two culs de sac of Marian Avenue, Mablethorpe
Appendix B	Planning Application Plan
Appendix C	Emails for Appeal
Appendix D	Priority List of Cases

#### 5. Background papers

The following background papers as defined in the Local Government Act 1972 were relied upon in the writing of this report.

Highways & Traffic Guidance Note 33 – Prioritisation of Definitive Map Modification Orders - <b>HAT 33/3/11</b>
---

This report was written by Chris Miller, who can be contacted on 01522 782070 or [chris.miller@lincolnshire.gov.uk](mailto:chris.miller@lincolnshire.gov.uk) .

**Wildlife & Countryside Act 1981, Section 53  
Definitive Map Modification Order**

**LUDBOROUGH – CLAIMED FOOTPATH ALONG A TRACK RUNNING TO AND  
FROM PUBLIC FOOTPATH NO. 107**

**1. Application**

A valid application under the Wildlife & Countryside Act 1981, section 53(5) from Ludborough Parish Council has been received by Lincolnshire County Council and is dated 18<sup>th</sup> September 2014.

**2. Location Plan of Route**

*See figure 1 below.*

**3. Background**

Mr Flanagan made an application to the County Council in November 2017 seeking the addition to the Definitive Map and Statement of a bridleway and footpath. The alleged bridleway runs directly between the two ends of Marian Avenue, and the alleged footpath runs in a loop over adjacent waste ground starting and ending at different locations on the alleged bridleway (see attached the copy of the plan which accompanied the application). The application is mainly supported by evidence forms completed by people who claim to have used the routes applied for: a total of 23 user evidence forms have been submitted to date. It was made follow the alleged posting of notices and erection of 2 metre high tubular steel fencing panels which blocked access to either end of the bridleway applied for. The application is currently ranked 152 out of 152 applications/cases.

**4. Planning Matter**

(East Lindsey District Council planning reference N/110/01551/18)

An application was made to the Planning Authority for the area, East Lindsey District Council, in August 2018. It seeks planning permission for the erection of several holiday dwellings on the land subject to Mr Flanagan's Modification Order Application. The proposed development does not appear to affect the alleged bridleway, but several dwellings proposed to be erected are in the location of the alleged footpath. The Planning Authority are currently seeking the views of the statutory undertakers and any parties affected or interested in the proposed developed, but no decision has been made on whether to grant outline or full planning permission for the scheme. For Plan see Appendix B

**5. Current Priority & Original Officer Assessment**

Following receipt of the applications officer opinion was that none of the exception criteria applied to the application. The case is currently ordered at number 152 of 152 outstanding cases (as at 18/10/2018)

## 6. Appeal

An appeal has been received from the wishing to pursue a change of priority relying on Criteria 1 & 2 (Appendix C)

*1) Where there is sustained aggression, hostility and ill feeling within a community that is causing severe disruption to the life of that community, and that in processing the case early there is a strong likelihood that this will reduce.*

*2) Where there is a significant threat to the route, likely to cause a permanent obstruction (e.g. a building, but not, for example, a locked gate or residential fencing).*

The initial appeal email of 1 October 2018 outlines that the planning permission being sought would impact on the footpath section of the claim and that this cannot be accommodated within the site layout for the development and as a consequence there is no opportunity to divert or otherwise exercise this claimed right.

The second email of 7 October 2018 indicates that, following the blocking of the route by the occupier with Heras fencing and large tree trunks, there has been a significant increase of hostility and disruption in the community. The appellants also indicate that they intend to serve notice on the County Council for the removal of the obstructions from the alleged right of way (Highways Act 1980 s.130A). The County Council has declined to act further in this regard as the route is subject to "serious dispute" as per Highways Act 1980 s.130B (5)(a) and *R v Lancashire CC ex parte Guyer* [1980]

Appendix A – Case Synopsis - DMMO 399 – Mablethorpe and Sutton – Claimed  
bridleway and footpath between the ends of two sections of Marian Avenue

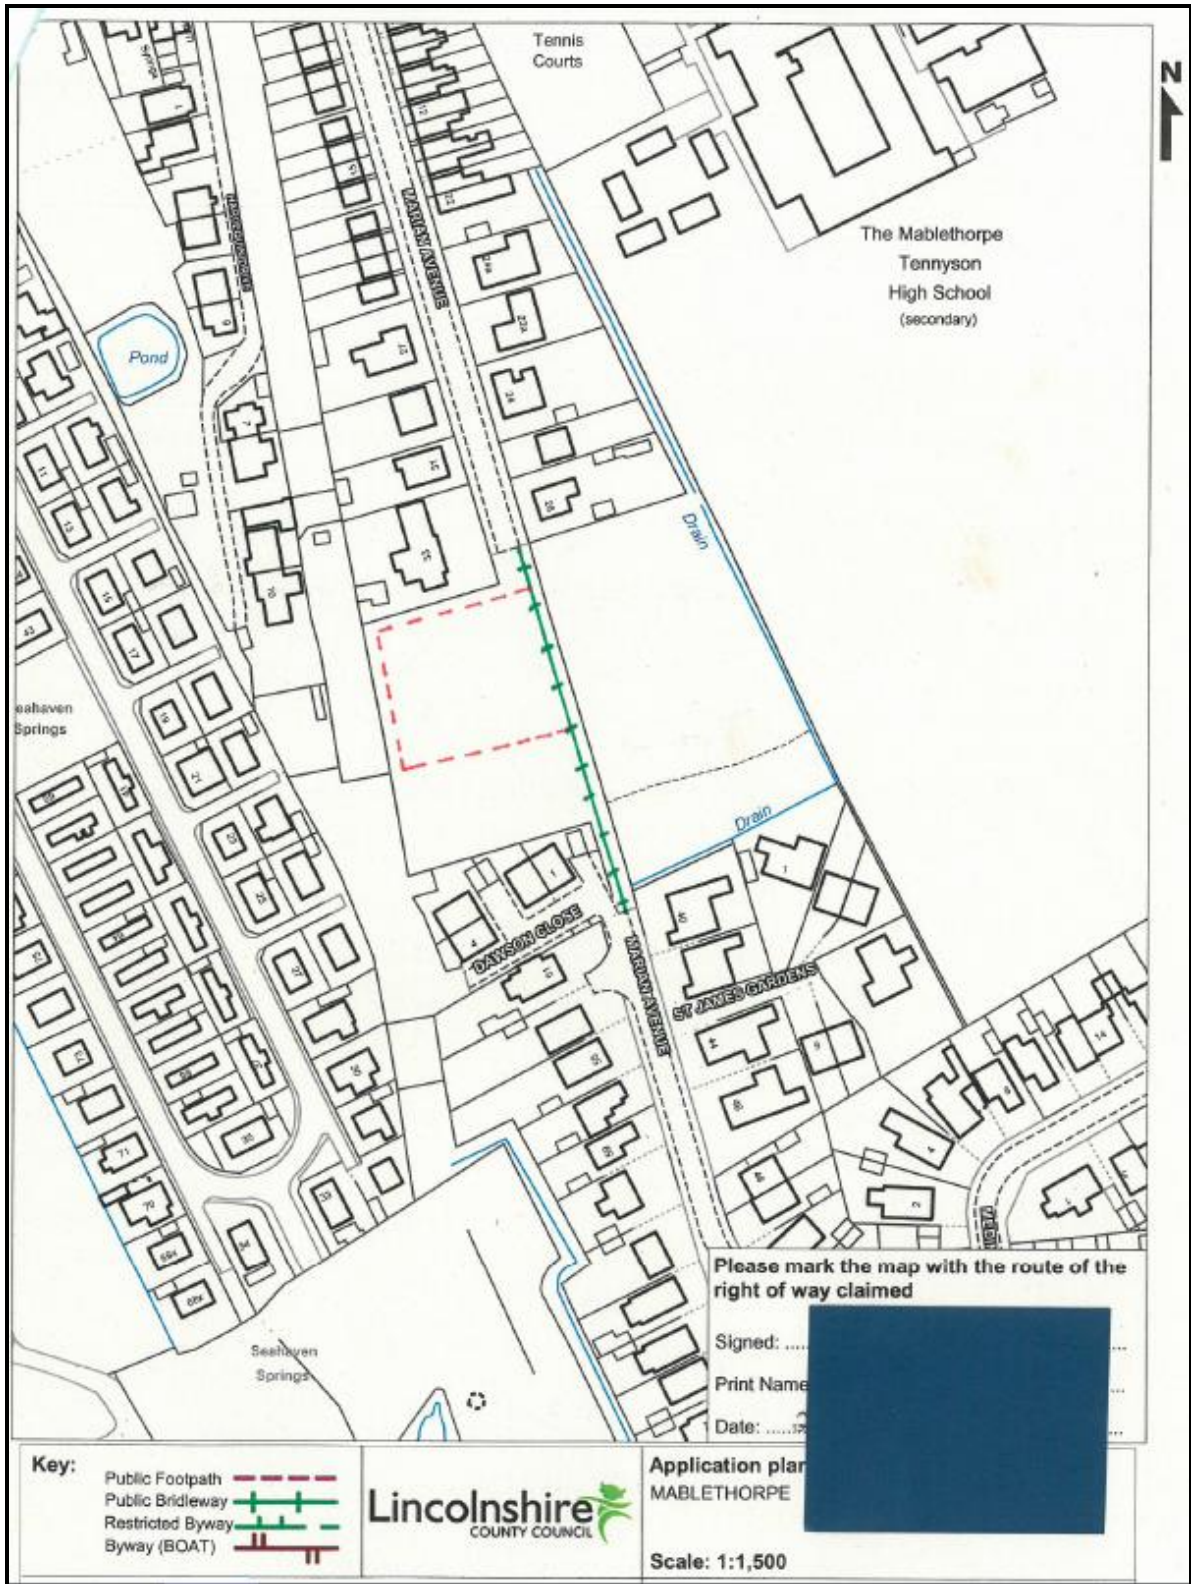

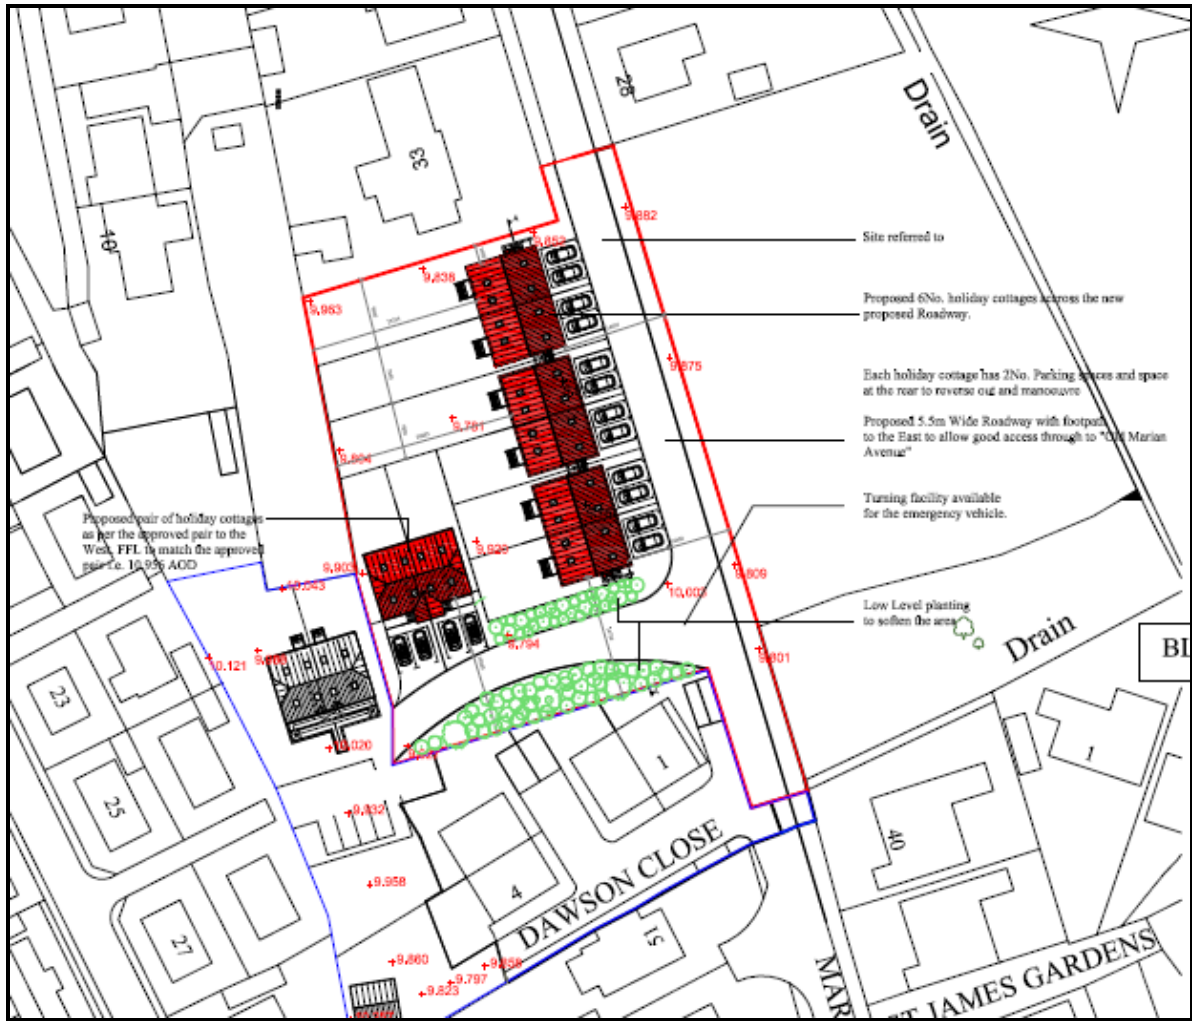

Fig.1. – Location mapping

## Appendix C – Appeal notifications

1 October 2018

Following a meeting today with the ELDC Planning Case Officer, I am informed that the agent / applicant for the development has rejected the suggestion that it is possible to include a 1m wide route following the north and west boundaries of the land and along a new access spur road that would have resolved this part of the DMMO application in relation to the path. I and supporting witnesses would have been happy to accept such a modification to the route. It is stated that the development, if approved, will proceed as planned and any DMMO will be responded to by applying for a modification to the route. Aside from costs that the developer will incur in pursuing this there will likely be cost implications for the County Council. More importantly the level of hostility and ill-feeling within the community is rising, Both of these are additional factors in giving higher priority to the DMMO application.

---

7 October 2018

After sending this email I am going to forward a Notice issued to LCC Highways under the Highways Act 1980, Section 130A(1) as inserted from the Countryside and Rights of Way Act 2000, Section 130A. It is important that you are aware of this as evidence of the growing hostility and ill-feeling being generated by the actions of the land owner. I have also been made aware of an altercation this afternoon between the landowner and a resident on the south side of Marian Avenue.

---
