

# Interim Integrated Care Strategy Overview

December 2022

# Context & Lincolnshire Approach

- Health and Care Act (2022) requires the Integrated Care Partnership (ICP) to develop an integrated care strategy setting out how assessed needs can be met by partners across the Integrated Care System (ICS).
- As a coterminous system we want to align the functions of the Lincolnshire ICP with the Lincolnshire HWB wherever practical.
- The Lincolnshire approach to developing the integrated care strategy is to ‘connect’ it to the Joint Health and Wellbeing Strategy:
  - The **Joint Health and Wellbeing Strategy (JHWS)** continuing to focus on ‘**the what**’ i.e. the priority areas identified by the Joint Strategic Needs Assessment (JSNA); and
  - The **Integrated Care Strategy** setting out ‘**the how**’ i.e. the key enablers the system will focus integration efforts on to support delivery of the JHWS priorities.

# Engagement to date

- **Planning and Development Workshop** held on 2 November 2022 with members of the ICP, HWB, district councils, representatives of primary care networks, and members of the voluntary and community sector.
- **Integrated Care Partnership Strategy Involvement Group** meeting monthly to provide support, advice and input to help shape the strategy by facilitating wider engagement, involvement and input across wider networks.
- Liaised with **Enabler Leads** to gather the content.
- **JHWS Priority Leads** engaged to ensure alignment between the JHWS and emerging integrated care strategy.

# Ambition & Aims

***For the people of Lincolnshire to have the best possible start in life, and be supported to live, age and die well.***

Page 4

Our shared aims are:

- To focus on **prevention and early intervention**
- To **tackle inequalities** and equity of service provision to meet population needs
- To **deliver transformational change** in order to improve health and wellbeing
- To **take collective action** on health and wellbeing across a range of organisations

**ICS  
Ambition**

**For the people of Lincolnshire to have the best possible start in life,  
and be supported to live, age and die well**

**ICS  
Aims**

*Have a strong focus on prevention and early intervention*

*Tackle inequalities and equity of service provision to meet the population needs*

*Deliver transformational change in order to improve health and wellbeing*

*Take collective action on health and wellbeing across a range of organisations*

**ICS  
Measures**

- *Decrease % of women smoking at time of delivery*
- *Decrease % of overweight children (including obesity) in Year 6*
- *Decrease % of physically inactive adults*

- *Decrease difference in childhood vacc. rate between most deprived (5th) and least deprived (5th)*
- *Decrease difference in premature death from CVD between people with SMI and the general pop.*
- *Decrease difference in prem. death from CVD between most deprived (5th) and least deprived (5th)*

- *Increase in no. of people who have a personalised care and support plan*
- *Increase in no. of people who benefit from community signposting / social prescribing*
- *Increase in no. of people aged 65 or more living independently for longer*

- *Increase no. of apprenticeships across ICS partner organisations*
- *Increase % of adults with learning disabilities and/or mental health needs supported into paid work*
- *Increase % of people who die in their preferred place*

The What  
HWB  
Strategy  
Priorities**

**CYP Mental Health and Emotional Wellbeing**

**Adult Mental Health**

**Dementia**

**Physical Activity**

**Healthy Weight**

**Housing**

**Carers**

**FOCUS OF THIS DOCUMENT**

**The How  
ICP  
Strategy**

**Population Health and Prevention**

**Workforce and Skills**

**Personalisation and Personalised Care**

**Community Engagement and Involvement**

**Information and Information Systems**

# Priority Enablers

1. **Population Health and Prevention** is the 'golden thread' that runs through the strategy and underpins the focus on improving health and wellbeing and tackling inequity.
2. **Workforce and Skills** is a critical enabler but there is an existing and growing demand that cannot be met by the current working age population.
3. **Personalisation and Personalised Care**, greater integration provides an opportunity to enhance choice and flexibility for people who use health and care services, and the people that provide them.
4. **Community Engagement and Involvement** will play a vital role in enabling communities to flourish and to ensure that residents are able to be healthy and live well.
5. **Information and Information Systems** will be key in supporting behaviour change by informing and support the delivery of care, decision making and enabling better outcomes for people.

## **Enabler 1: Population Health & Prevention**

- ✓ Preconception, Infancy and early years (0 – 5 years)
- ✓ Childhood and adolescence (5 -19)
- ✓ Working age (16 - 64)
- ✓ Ageing Well

## **Enabler 2: Workforce & Skills**

- ✓ To inspire and support young people to stay and work in the area
- ✓ To train and support people who are already working, or seeking jobs, so they gain the skills needed to take up future job vacancies

### **Enabler 3: Personalisation**

- ✓ Personalised care and shared decision making
- ✓ Patient activation and supported self management
- ✓ Social prescribing and community based support

### **Enabler 4: Community Engagement & Involvement**

- ✓ Consultation, engagement and collaboration
- ✓ Community networks
- ✓ Volunteering
- ✓ Funding for our communities
- ✓ Tools and data

## Enabler 5: Information and Information Systems

✓ Supporting People - transforming health and care through better use of digital technologies.

- Access to own care record and care plan.
- Self management using digital tools.
- Communication and engagement with professionals to communicate remotely.
- Access to information online.

Page 9 ✓ Care delivery by local health and care professionals.

- Population analytics on the needs and activity of the local population.
- Population segmentation to support care for specific groups.
- Performance analytics to monitor integrated outcomes.
- Service user identification.
- Service user registry giving local care teams access to summary information.
- Care planning.
- Intervention management capability.
- Delivery analytics.
- Remote monitoring capability.

# Proposed Governance and Delivery

# Timescales & Next Steps

- National guidance acknowledges 2022 – 2023 is a transitional year.
- Interim strategy needs to be published December 2022 to influence the 5-year NHS Lincolnshire ICB forward plan for 2023.
- The strategy will develop further during 2023, as the ICS arrangements matures.
- This process will align with the publication of the new JSNA and the associated review of the JHWS.
- A wide-ranging programme of engagement with partners, stakeholders and the public is planned to test the ambition and aims.
- The strategy will be published in December 2023.
