

## Appendix B – Consultation Letter

Dear Sir/Madam

GRANTHAM; STAMFORD STREET & VICTORIA STREET – PROPOSED TRAFFIC REGULATION ORDERS

Following recent inspections and concerns raised by Lincolnshire Fire & Rescue, vehicles have been recorded as parked inappropriately on Stamford Street and Victoria Street in Grantham. It has been observed that a number of vehicles are parking causing obstruction to fire hydrants and impeding the progress of emergency vehicles, particularly around the tight bends. It has become apparent therefore that an increasing need for additional waiting restrictions exists.

Therefore it is proposed that:

- No Waiting At Any Time restrictions are introduced along Stamford Street and Victoria Street to alleviate these concerns

The proposals are shown on the attached plan, and I would be pleased to receive any comments you may wish to make on these matters by 25<sup>th</sup> October 2016. If I do not receive a response by then I will presume that you are in support of the proposals.

Yours Faithfully

For Mark Heaton

AREA HIGHWAYS MANAGER - GRANTHAM
