<p><b>Protecting the public</b></p> <p>The purpose of this commissioning strategy is to create an environment that enables the people of Lincolnshire to succeed and prosper, to ensure the public feel protected and secure and that those that are most vulnerable are safeguarded.</p>	<p>The public are protected from unsafe and dangerous goods</p>	<p><b>1. Illicit alcohol and tobacco seized</b></p> <p>Number of illicit alcohol and tobacco products seized. Products include: . Illicit alcohol and tobacco includes counterfeit, non-duty paid, unsafe, incorrectly labelled, and other illicit brands.</p>	3918 products	Actual 1,870 products  Target 1,959	Target to be confirmed once Q3 performance is analysed	Higher number of products is better	 The service forecast for yearend is to be on target.
		<p><b>2. Unsafe and illicit goods removed from the market</b></p> <p>An 'unsafe good' is any product that does not conform to European and/or UK safety standards and regulations or does not meet the definition of a safe product in the General Product Safety Regulations 2005. There are many types of product that could be unsafe and would be the responsibility of Trading Standards and this includes electrical items, cosmetics, clothing, furniture and toys. Illicit good are largely counterfeit goods. These figures are dependent on successful legal process, meaning forfeiture or surrendering of the products.</p>	24,000	Actual 21,907 products  Target 20,000 products	Target to be confirmed once Q3 performance is analysed	Higher number of goods removed is better

		<p><b>5. Alcohol related anti-social behaviour incidents</b></p> <p>This measure is a count of Police recorded Anti-Social Behaviour incidents. An Anti-Social Behaviour incident is classed as alcohol-related if it fulfils one these criteria: Where alcohol has been identified as contributing to the incident, the incident is classed as either 'street drinking' or 'drunken behaviour' or the caller's initial description of the incident contains the words 'drunk', 'drink', 'alcohol', 'intoxicated', or 'urinate'.</p>	Decrease by 5% on 2015/16 year end outturn	Actual 1,681 incidents  Target 1,823 incidents	Decrease by 5% on 2016/17 year end outturn	Lower number of incidents is better	
		<p><b>6. Alcohol related violent crime incidents</b></p> <p>This measure is a count of all Home Office notifiable violence against the person offences (excluding 'no crimes') where alcohol is identified as contributing to the incident. Violence against the person offences includes all assaults apart from sexual offences.</p>	Decrease by 5% on 2015/16 year end outturn	Actual 732 incidents  Target 790 incidents	Decrease by 5% on 2016/17 year end outturn	Lower number of incidents is better	
		<p><b>7. Reported incidents of domestic abuse</b></p> <p>This measure is a count of all incidents reported to the Police where a Domestic Abuse Stalking and Harassment (DASH) risk assessment was completed. These risk assessments are performed in all incidents that meet the government's definition of domestic abuse.</p>	Increase by 3% on 2015/16 year end outturn	Actual 5,089 reported incidents  Target 5,246 reported	Increase by 3% on 2016/17 year end outturn	Higher number of reported incidents is better	 The yearend forecast is expected to be lower number of reported incidents than the annual

2017/18 targets in this document are informed by latest performance information (2016/2017 Q2) and are subject to change to reflect 2016/17 out turns; changes in the wider economy; the nature of demand; the consequences of any service reductions and any changes in priorities. This Council Business Plan will be reviewed as part of quarterly performance reporting. Any proposed changes to reporting will be agreed by the Executive.

Commissioning Strategy	Outcomes Outcomes are the results or benefits for individuals, families, groups, communities, organisations or systems. 		<b>8. Domestic homicides</b> A Domestic Homicide is identified by the Police and refers to when someone has been killed as a result of domestic violence.	It is not appropriate to set a target for this measure	5	It is not appropriate to set a target for this measure	Lower is better	Prior to 2016/2017 there was one notification of a domestic homicide received each year from the first in Q3 2012/2013. The spike in the number of domestic homicide reviews in 2015/2016 is not necessarily related to activity and therefore the learning from the reviews is key. 
		<b>9. Repeat referrals of Domestic Abuse to MARAC</b> The MARAC (Multi-Agency Risk Assessment Conference) is a meeting where key agencies formulate action plans to help protect victims of domestic abuse who are at a high risk of murder or serious harm. Local agencies refer high risk victims to MARAC following completion of a Domestic Abuse Stalking and Harassment (DASH) risk assessment. Following being heard at MARAC, if within 12 months there is a further serious incident reported to the police or a disclosure received by any of the agencies the victim is to be referred back to the MARAC as a 'repeat'. This measure is a count of repeat referrals to MARAC expressed as a percentage of the total MARAC referrals on a rolling 12 month basis. Although this measure is used as a proxy for repeat victims of domestic abuse, it does not provide a full or accurate picture of repeat victimisation. MARAC covers high risk domestic abuse victims who account for less than 8% of all reported incidents of domestic abuse. This disproportion means that there are likely higher numbers of repeat victims than can be detected in the MARAC data.	It is not appropriate to set a target for this measure	17.8%	It is not appropriate to set a target for this measure	Maintain rate of repeat referrals	Nationally the percentage of repeat cases seen at MARACs is 25%. The rate of repeat referrals to MARAC in Lincolnshire has remained between 18 and 20% since 2013/2014. This translates into an average of 150 repeat referrals. The relatively small numbers of repeat referrals means the percentage can swing quite wildly but the actual number of repeat referrals has not changed dramatically

		This measure helps demonstrate our achievement against Section 17 of the Crime and Disorder Act 1998 "Duty to consider crime and disorder implications" which sets out the requirement for Local Authorities to work in partnership with relevant agencies " ...to do all that it reasonably can to prevent crime and disorder in its area". Satisfaction that the Police and Local Council are dealing with anti-social behaviour and crime issues is a measure of successful multi-agency response in Lincolnshire.		satisfaction 2015/2016  Target 62% satisfaction 2015/2016	2016/2017	satisfaction is better	A year end forecast is not available as this measure is reported nationally as part of the Crime Survey for England and Wales. The service is planning to work with Lincolnshire Police to develop this measure in order to be better informed of progress in the future.
		<b>14. Adults Reoffending</b> This is a measure of adult reoffending rates over a 12 month rolling period. Offenders who are formally informed by Lincolnshire Police that they will be recorded as being responsible for committing a crime over a 3 month period are included in the numerator. The denominator is then the number of those offenders who commit another offence in Lincolnshire during a 12 month follow-up period that leads to the offender being informed by the police that they will be recorded as being responsible for the crime. The data is reported cumulatively. This measurement is local to Lincolnshire, it does not replace the existing or forthcoming MOJ Reoffending Rate but is meant to compliment and allow more timely and practical analysis. The methodology is intended to mirror the format of the revised MOJ Reoffending Rate which will be used nationally from October 2017 however the final figures will not be the same due to slightly different cohort compositions. 	Reduce the number of young people committing a crime	<b>15. Juvenile first time offenders</b> The First Time Entrant (FTE) measure is a rate per 100,000 of 10-17 population in Lincolnshire. However, for this purpose we are reporting the actual number of young people, rather than the rate. A lower number is a sign of good performance. The target is set by Lincolnshire County Council, the Youth Justice Board monitor and challenge progress.	203 July 2016 – June 2017	Actual 265 April 2015 – March 2016  Target 203 April 2015 – March 2016	203 Target based on Midlands Regional Average for the period July 2017– June 2018	Lower number of offenders is better	 Based on historical trends the yearend forecast is 275.
