

# Agenda Item 9

		<b>THE HEALTH SCRUTINY COMMITTEE FOR LINCOLNSHIRE</b>	
Boston Borough Council	East Lindsey District Council	City of Lincoln Council	Lincolnshire County Council
North Kesteven District Council	South Holland District Council	South Kesteven District Council	West Lindsey District Council

Open Report on behalf of Richard Wills, the Director Responsible for Democratic Services

Report to	<b>Health Scrutiny Committee for Lincolnshire</b>
Date:	<b>19 July 2017</b>
Subject:	<b>Health Scrutiny Committee for Lincolnshire - Work Programme</b>

## Summary:

This item enables the Committee to consider and comment on the content of its work programme, which will be reviewed at each meeting of the Committee to ensure that its content is relevant and will add value to the work of the Council and its partners in the NHS. Members are encouraged to highlight items that could be included for consideration in the work programme.

The Committee is also invited to consider a request from the Health and Wellbeing Board that an item relating to NHS screening and immunisation be added to the work programme.

## Actions Required:

The Health Scrutiny Committee is invited to:

- (1) review, consider and comment on the work programme as set out in Appendix A to this report;
- (2) highlight for discussion any additional scrutiny activity which could be included for consideration in the work programme; and
- (3) consider the request from the Health and Wellbeing Board that the Health Scrutiny Committee consider the issues raised in the report by Healthwatch Lincolnshire entitled: *NHS Immunisation and Screening for patients in Lincolnshire* and report to the Health and Wellbeing Board on its findings.

## 1. Background

The overview and scrutiny of the health service and other areas within the remit of this Committee should be positive, constructive, independent, fair and open. The scrutiny process should be challenging, as its aim is to identify areas for improvement. Scrutiny activity should be targeted, focused and timely and include issues of corporate and local importance, where scrutiny activity can influence and add value.

Health overview and scrutiny committees should not involve themselves in relatively minor matters or individual cases, particularly where there are other processes (for example NHS complaints processes), which can handle these issues more effectively.

All members of overview and scrutiny committees are encouraged to bring forward important items of community interest to the committee whilst recognising that not all items will be taken up depending on available resource.

### Purpose of Scrutiny Activity

Set out below are the definitions used to describe the types of scrutiny, which relate to the Health Scrutiny Committee's work programme:

Policy Development - The Committee is involved in the development of policy, usually at an early stage, where a range of options are being considered.

Policy Review - The Committee is reviewing the implementation of policy, to consider the success, impact, outcomes and performance.

Performance Scrutiny – This describes circumstances where the Health Scrutiny Committee is scrutinising periodic performance, issue specific performance or external inspection reports, for example from the Care Quality Commission.

Consultation - The Health Scrutiny Committee is responding to (or making arrangements to) respond to a consultation, either formally or informally. This includes pre-consultation engagement. This includes consultations on any proposals for a substantial variation or development in local health provision.

Budget Scrutiny - The Committee is scrutinising the previous year's budget, or the current year's budget or proposals for the future year's budget.

Requests for specific items for information should be dealt with by other means, for instance briefing papers to members.

### Identifying Topics

Selecting the right topics where scrutiny can add value is essential in order for scrutiny to be a positive influence on the work of the local NHS. The Committee

may wish to consider the following questions when highlighting potential topics for inclusion in the Committee's work programme: -

- Will scrutiny input add value?  
*Is there a clear objective for scrutinising the topic, what are the identifiable benefits and what is the likelihood of achieving a desired outcome?*
- Is the topic a concern to local residents?  
*Does the topic have a potential impact for one or more section(s) of the local population?*
- Is the topic a priority area?  
*Does the topic relate to Joint Health and Wellbeing Strategy or other strategy documents, such as the Sustainability and Transformation Plan?*
- Are there relevant external factors relating to the issue?  
*Is the topic a Department of Health or NHS England priority area or is it a result of new government guidance or legislation?*

### Scrutiny Review Activity

Where a topic requires more in-depth consideration, the Committee may commission a scrutiny panel to undertake a scrutiny review, subject to the availability of resources and approval of the Overview and Scrutiny Management Board. The Committee may also establish a maximum of two working groups at any one time, comprising a group of members from the committee.

Work Programme items on scrutiny review activity can include discussion on possible scrutiny review items; finalising the scoping for the review; consideration and approval of the final report; the response to the report; and monitoring outcomes of previous reviews.

## **2. Request from Health and Wellbeing Board – Screening and Immunisation**

On 7 March 2017, the Health and Wellbeing Board considered a report published by Healthwatch Lincolnshire in February 2017 on *NHS Immunisation and Screening for Patients in Lincolnshire*, which is available on the Healthwatch Lincolnshire website: -

<http://www.healthwatchlincolnshire.co.uk/healthwatch-lincolnshire-nhs-immunisation-and-screening-in-lincolnshire-report/>

On 7 March 2017, the Health and Wellbeing Board agreed to receive the report and sought a further report from the Lincolnshire Health Protection Board at a subsequent meeting to address some of the issues raised in the Healthwatch report.

Subsequently, on 20 June 2017, the Health and Wellbeing Board agreed that its concerns in regard to screening and immunisation should be referred to the Health Scrutiny Committee for Lincolnshire for consideration. This referral has been made in accordance with the *Protocol Between Health and Wellbeing Board, Healthwatch Lincolnshire and the Health Scrutiny Committee for Lincolnshire*, which enables matters to be referred from the Board to the Committee. If the Health Scrutiny Committee accepts this request to consider screening and immunisation, it is suggested that the Committee consider a report from the Lincolnshire Health Protection Board and pass on any findings to the Health and Wellbeing Board.

**3. Conclusion**

The Committee’s work programme for the coming year is attached at Appendix A to this report.

The Committee is invited to review, consider and comment on the work programme as set out in Appendix A and highlight for discussion any additional scrutiny activity which could be included for consideration in the work programme.

The Committee is also invited to consider a request from the Health and Wellbeing Board for the inclusion of an item in the Committee's work programme relating to screening and immunisation.

**3. Appendices**

These are listed below and attached at the back of the report	
Appendix A	Health Scrutiny Committee for Lincolnshire – Work Programme

**4. Background Papers**

No background papers within Section 100D of the Local Government Act 1972 were used in the preparation of this report.

This report was written by Simon Evans, Health Scrutiny Officer, who can be contacted on 01522 553607 or by e-mail at [Simon.Evans@lincolnshire.gov.uk](mailto:Simon.Evans@lincolnshire.gov.uk)
