## 1. Background

This is a standing item to inform the Committee on the position of all current Section 19 investigations in the County.

Despite higher than average precipitation in March (in the form of rain and significant snowfall), in Quarter 4 (January to March 2018) there was only one new Section 19 investigation started. This investigation relates to chronic groundwater flooding of a single residence in Sibsey, in which over a period of time the local conditions led to groundwater ingress into the underfloor cavity of the residence. In the same period last year no flood events were reported.

The inclusion of an investigation in Appendix A does not necessarily mean the investigation itself is incomplete. It will be noted that in some cases the investigation is marked as being completed, but the flood incident will remain on

Appendix A as there may be outstanding works arising from the investigation which have not yet been completed by the relevant Risk Management Authority.

## **2. Conclusion**

Members of the Flood and Water Management Scrutiny Committee are invited to review the investigations undertaken in the County under Section 19 of the Flood and Water Management Act 2010 (FWMA).
