

TYPE OF INSPECTIONS

Mystery

Young people pretending to do an activity or go to a place to ask for something when secretly they are inspecting.

Observation

People know you are coming to look at what they do. You might look at buildings, information boards, how people work etc.

Questionnaire

These are usually sent out and we don't meet the people. It is a good way of asking lots of people to give you information.

Focus group

Talking to a small group of people, asking direct questions usually use flip chart to record what people say. Focus groups are usually used with another inspection type.

Interview

Talking directly to one person at a time, often using a set of pre prepared questions so every person you interview is asked the same thing.

You should never be asked to do something you are not comfortable with. If you have any problems, speak to one of the Young Inspector staff straight away.

Who will I do an inspection with?

You usually go out in teams of at least two or three for each visit. One of the Young Inspector staff will go with you for additional support.

Before each Inspection visit we will meet up with you to talk about the type of service we will be inspecting. You will also be sent a task sheet with further details on, this tells you: Date, Time, Place, Who is going with you, What we will be looking at.

You will take photos. You will need to make clear notes or work with someone who can make notes. You will talk to staff, families and children. Share information with other young inspectors and staff. Write reports if you want to. Take notes at meetings to share with the rest of the group.
