

Secondary schools in receipt of a Stay Safe Day

The Stay Safe Partnership delivers preventative messages to young people in education establishments about key crime and disorder issues. The core offer of the Stay Safe Partnership is the delivery of Stay Safe Days to mainstream secondary schools in Lincolnshire. Stay Safe Days are multi-agency days which cover a variety of key safety areas, giving students the correct information to make informed decisions should they be faced with certain situations. Topics include fire safety, internet safety, alcohol awareness, anti-social behaviour, healthy relationships, road safety and drugs awareness. This measure is the proportion of mainstream secondary schools in Lincolnshire (excluding Pupil Referral Units and independent schools), that have received at least one Stay Safe Day delivered by the Stay Safe Partnership in the previous academic year. The more schools receiving sessions the wider preventative messages can be delivered.

About the latest performance

Following the closure of schools due to the COVID19 pandemic, the delivery of Stay Safe Days in Lincolnshire was halted. As a result, the target of delivering Stay Safe Days to 80% of mainstream secondary schools has not been achieved. 15 schools had to cancel the Stay Safe Day because of closures and 22 sessions were not delivered. Had delivery not been interrupted, 93% of mainstream secondary schools in Lincolnshire would have received a Stay Safe Day during the 2019-20 school year. Delivery in schools has now resumed for 2020-21.

About the target

The more schools receiving sessions the wider preventative messages can be delivered, therefore we would like to see an increase in schools receiving a Stay Safe Days so we can get these messages to more young people.

About the target range

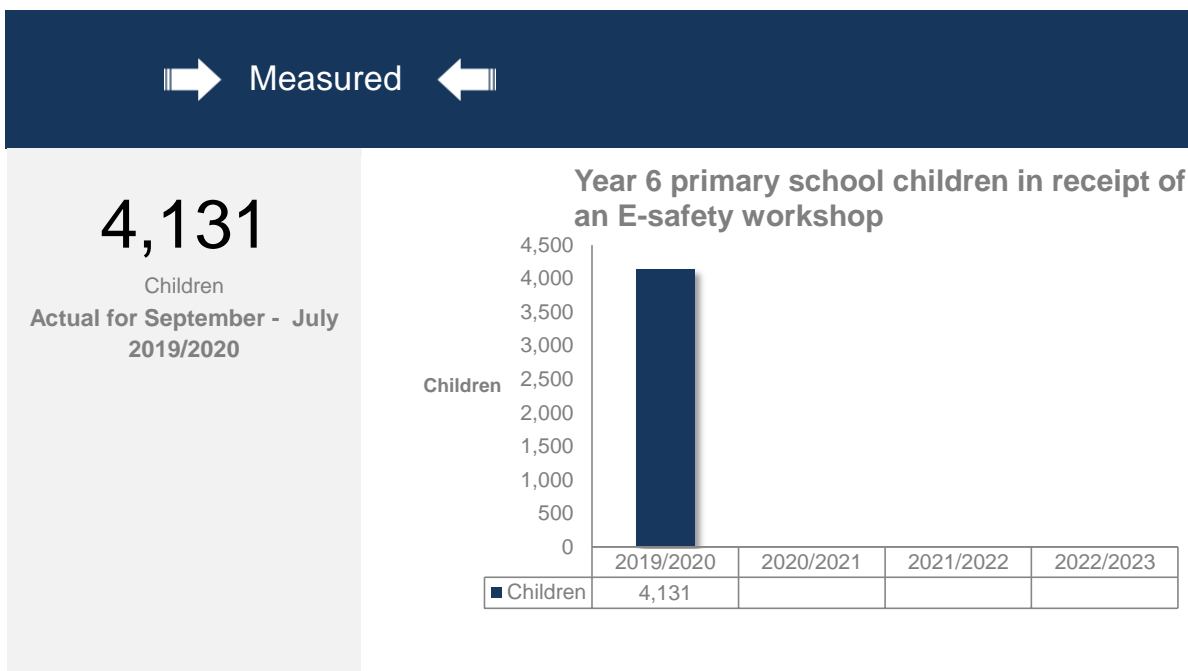

The 0.5% tolerance for this measure allows for some fluctuation against the target.

About benchmarking

This measure is local to Lincolnshire and therefore is not benchmarked against any other area.

Year 6 primary school children in receipt of an E-safety workshop

The Stay Safe Partnership delivers preventative messages to young people in education establishments about key crime and disorder issues. The core offer of the Stay Safe Partnership is the delivery of Stay Safe Days to mainstream secondary schools in Lincolnshire. As an extension of the current Stay Safe Day offer to secondary schools, E-safety workshops are being offered in primary schools throughout Lincolnshire. The E-safety workshop is an interactive workshop for year 6 students looking at social media and their transition to secondary school. The workshop also enables students to understand ways of safeguarding themselves from abuse and bullying online. The sessions are free for schools and as these are delivered in addition to the core Stay Safe Partnership offer, the ability to service these is reliant on capacity. This measure is a count of year 6 primary school children who received an E-safety workshop delivered by the Stay Safe Partnership in the previous academic year.

About the latest performance

Following the closure of schools due to the COVID19 pandemic, the delivery of E-Safety workshops in Lincolnshire was halted. As a result, 1,840 students missed the opportunity to receive the E-Safety workshop. Had delivery not been interrupted, 5,971 students in Lincolnshire primary schools would have received an E-Safety workshop during the 2019-20 school year. Delivery in schools has now resumed for 2020-21.

About the target

E-Safety workshops are an extension to the core offer of the Stay Safe Partnership, consequently there is currently no active target set and therefore this indicator is reported as measured.

About the target range

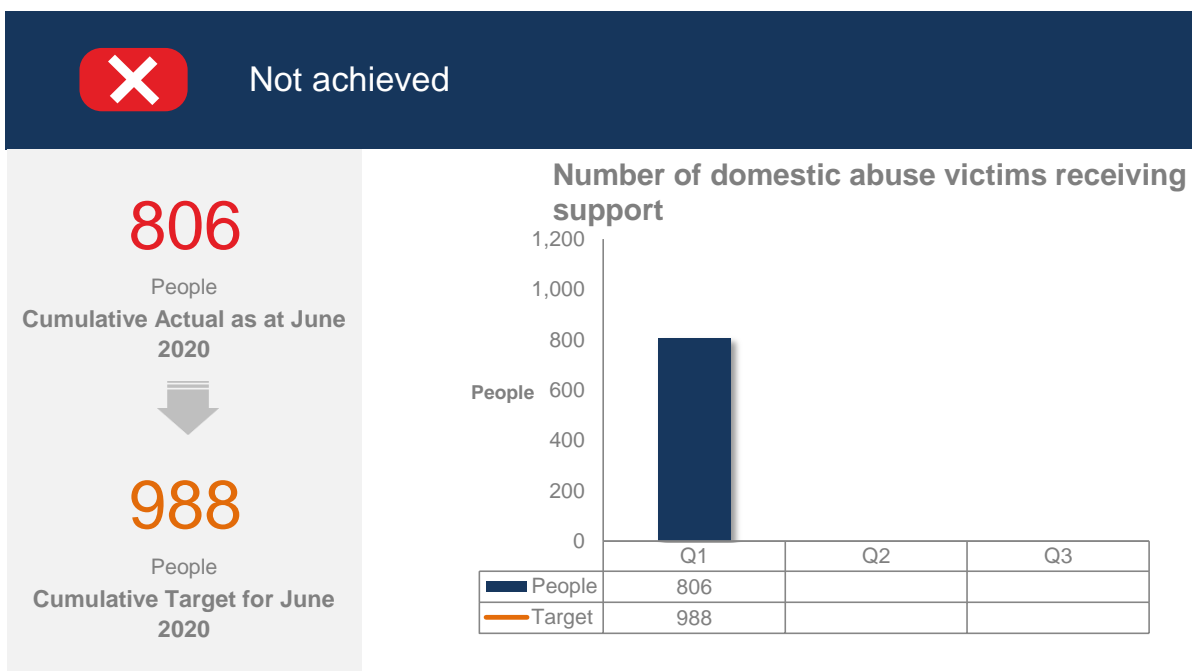

A target range is not applicable as this is a contextual measure.

About benchmarking

This measure is local to Lincolnshire and therefore is not benchmarked against any other area.

Number of domestic abuse victims receiving support

This measure is a count of the number of victims of Domestic Abuse who have received support from any one of the domestic abuse support services (excluding refuge) commissioned by Lincolnshire County Council. Services include: Independent Domestic Violence Advisors (IDVAs), Outreach and targeted support for adults, children and young people in a directly abusive relationship and those children and young people within a family experiencing domestic abuse. The service is currently provided by Ending Domestic Abuse Now in Lincolnshire (EDAN Lincs). If a person has received support more than once in the period or by more than one part of the support service (i.e. an IDVA and Outreach) they will be counted more than once.

About the latest performance

The target for this measure was based on a forecast from figures reported in 2019-20 however these reporting figures have subsequently been revised to only include those adults and children referred to EDAN Lincs who receive a level of service. Work will be undertaken to review the baseline measure to ensure accurate reporting for the remainder of 2020/21.

Domestic abuse services provided by EDAN Lincs have continued to operate effectively and support the needs of victims, children and families during the COVID19 pandemic. Support to clients has been undertaken through telephone and video consultation and face to face support is now resuming. The EDAN Lincs Outreach service also provided 'one off' advice and support to 2,269 people during Q1 2020-21 in response to telephone and online enquiries, far greater than numbers previously experienced.

About the target

We take reports of Domestic Abuse seriously and encourage victims to seek support including children and families. Therefore, we want to maintain the number of victims accessing the support they need.

About the target range

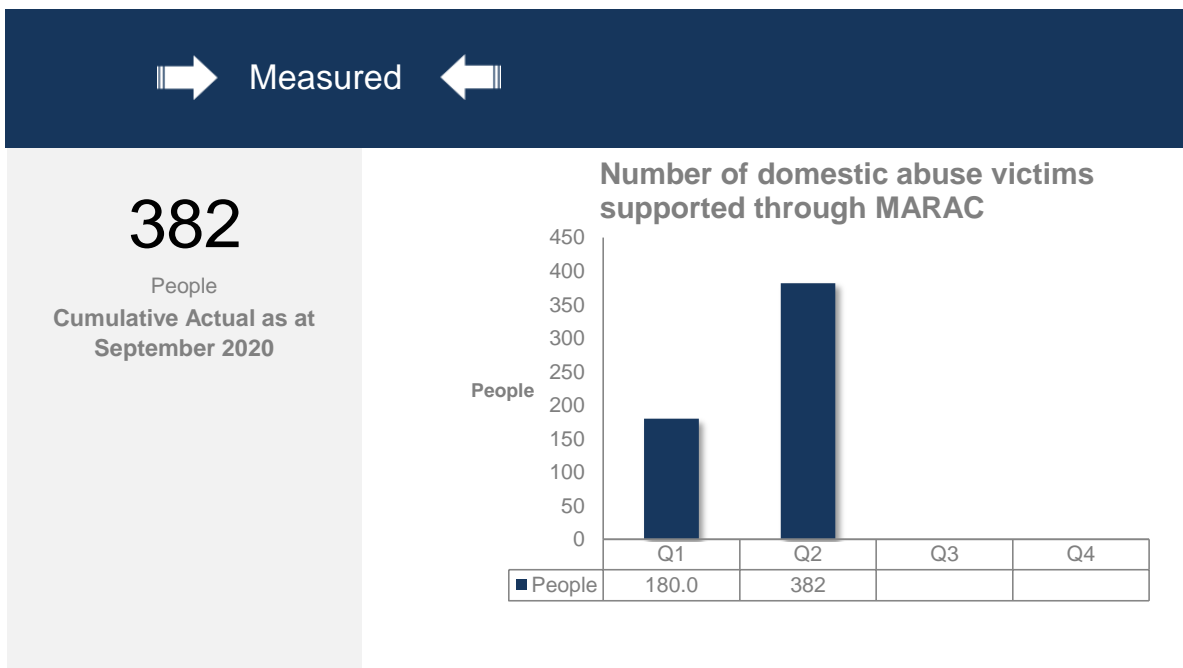

The 0.5% tolerance for this measure allows for some fluctuation against the target.

About benchmarking

This measure is local to Lincolnshire and therefore is not benchmarked against any other area.

Number of domestic abuse victims supported through MARAC

A Multi-Agency Risk Assessment Conference (MARAC) is a meeting where information is shared on the highest risk domestic abuse cases between representatives of local police, health, child protection, housing practitioners, Independent Domestic Violence Advisors (IDVAs), probation and other specialists from the statutory and voluntary sectors. After sharing all relevant information they have about a victim, the representatives discuss options for increasing the safety of the victim and turn these into a co-ordinated action plan. The primary focus of the MARAC is to safeguard the adult victim. This measure is a count of the number of new victims supported through the Multi-Agency Risk Assessment Conference.

About the latest performance

Referrals to MARAC have remained relatively stable during the COVID19 pandemic. MARAC continues to operate on a weekly basis with all partners engaged in the process. The MARAC is currently operating virtually and regular monitoring of data and the process is in place.

About the target

It is not appropriate to target this measure.

About the target range

A target range is not applicable as this is a contextual measure.

About benchmarking

Although MARACs operate across the country, the methodology used for this measure is local to Lincolnshire and therefore is not benchmarked against any other area.
