

## **EXECUTIVE COUNCILLOR FOR HIGHWAYS, TRANSPORT AND IT**

**14 – 18 DECEMBER 2020**

---

### **APPROVAL TO AWARD A CONTRACT FOR THE SUPPLY OF WINTER MAINTENANCE VEHICLES**

On 14 December 2020, the Highways and Transport committee unanimously agreed to support the recommendation to the Executive Councillor for Highways, Transport and IT set out in the report on the Approval to Award a Contract for the Supply of Winter Maintenance Vehicles.

The Committee agreed no additional comments should be forwarded to the Executive Councillor.

Prior to reaching this conclusion, the Committee had referred to the strong argument for moving from lease arrangements for winter maintenance vehicles to purchasing of these vehicles, particularly as purchased vehicles represent an asset for the Council, and would lead to savings of £13 million over the capital investment period.
