

# Internal Audit Charter 2022-25

## Our Mission

To enhance and protect organisational value by providing risk-based and objective assurance, advice and insight to our clients

The Council expects the Internal Audit service to achieve the mission statement through its overall delivery arrangements – this Charter sets out how this is done.

# Internal Audit Charter

## Purpose of this Charter

This Charter formally defines Internal Audit's purpose, authority and responsibility. It establishes Internal Audit's position within the Council and defines the scope of Internal Audit activities.

## Internal Audit's Purpose

Internal Audit provides an independent, objective assurance and consulting activity that is designed to add value and improve the organisation's operations. It helps the organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

Page 180 Internal Audit also provides the Audit Committee with information necessary for it to fulfil its own responsibilities and duties.

Implicit in Internal Audit's role is that it supports the organisation's management to fulfil its own risk, control and compliance responsibilities.

Internal audit does not have responsibility for the prevention or detection of fraud and corruption. Internal Auditors should, however, be alert in all their work to risks and exposures that could allow fraud or corruption and to any indications that a fraud or corruption may have been occurring. Audit procedures alone, even when performed with due professional care, cannot guarantee that fraud or corruption will be detected. Managing the risk of fraud and corruption is the responsibility of management

## Internal Audit's Authority

There is a statutory requirement for the Council to have an internal audit of its governance, risk and control processes. The [Accounts and Audit Regulations 2015](#), more specifically require that the audit takes into account the [Public Sector Internal Audit Standards \(The Standards\)](#) or guidance.

These Standards set the basic principles for carrying out internal audit in the public sector and provide criteria against which quality and performance can be evaluated. The Chartered Institute of Public Finance (CIPFA) have also developed an [application note](#) for the Standards – which sets out the proper practice for Internal Audit in local government.

Internal Audit derives its authority from these, from this Charter and from the Council's Constitution, specifically the Financial Regulations.

The Council's Section 151 Officer is required to ensure that the Internal Audit function is appropriately resourced and effective.

The Head of Internal Audit and Internal Audit staff are authorised to:

- Have unrestricted access to all the organisation's records, property, and personnel, management and elected members relevant to the performance of its engagements. Including those relevant to services provided in partnership or under contract with external organisations.
- Obtain the necessary assistance of the organisation's personnel in relevant engagements, as well as other specialised services from within or outside the organisation.

Internal Audit has no authority or management responsibility for any of its engagement subjects.

Internal Audit (and its auditors) will not make any management decisions or engage in any activity which could reasonably be construed to compromise its independence. Auditors are free from operational system involvement or influence.

## Internal Audit's Responsibility

The Head of Internal Audit is responsible for all aspects of Internal Audit activity, including strategy, planning, performance, quality and reporting.

For each, the Head of Internal Audit will:

### Strategy

- Review the Internal Audit Strategy at least annually with management and Audit Committee.

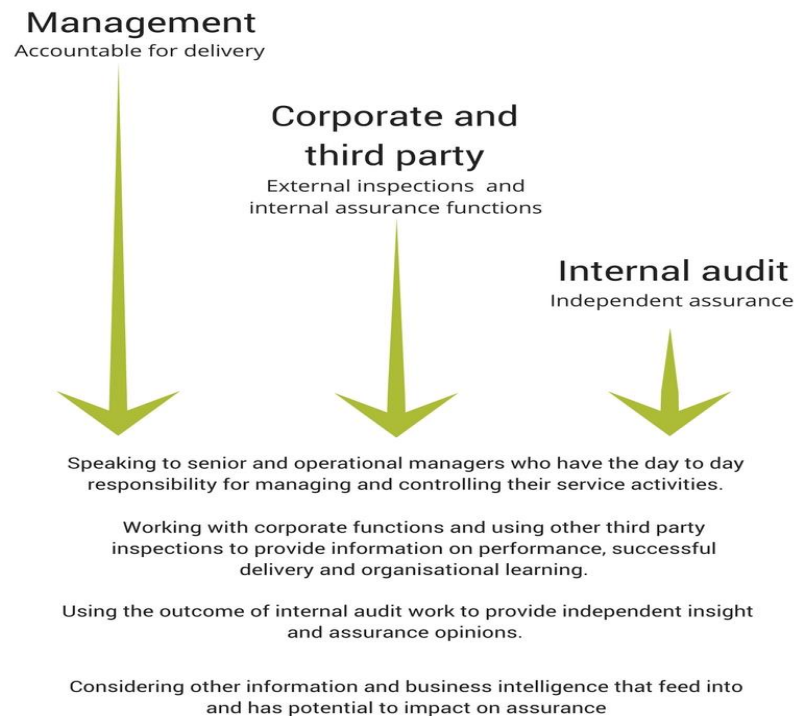

### Planning

- Page 181
- Develop and maintain an Internal Audit Strategy and risk based Internal Audit Plan.
  - Engage with Management and consider the organisation's strategic and operational objectives and related risks in the development of the Internal Audit Plan.
  - Review the Internal Audit Plan periodically with management to reflect changes in the risk environment and these changes are approved when significant.
  - Present the Internal Audit Plan, including updates, to the Audit Committee for periodic review and approval.
  - Prepare an Internal Audit Budget sufficient to fulfil the requirements of this Charter, the Internal Audit Strategy, and the Internal Audit Plan.
  - Submit the Internal Audit Budget to the Audit Committee for review and approval annually.
  - Coordinate with and (where relevant) provide oversight of other control and monitoring functions, including Risk Management, external audit.
  - Consider the scope of work of the external auditors (and other assurance providers) for the purpose of providing optimal audit coverage to the organisation.

- The Head of Internal Audit should be consulted about significant proposed changes to the internal control system and the implementation of new systems - providing advice on the standards of controls to be applied. This need not prejudice the audit objectivity when reviewing systems at a later date.

In developing the Internal Audit Plan we also take account of the Council's assurance framework – using the Three Lines of Assurance (see below) which is obtained through our Combined Assurance work.

How do we assure ourselves about how the council is run?

## Internal Audit's Scope

The scope of Internal Audit activities includes all activities conducted by the organisation - Including those services provided in partnership or under contract with external organisations. There are no restrictions.

The risk-based Internal Audit Plan identifies those activities identified as the subject of specific Internal Audit engagements – helping to support the Head of Internal Audit opinion on governance, risk and control.

**Assurance engagements** involve the objective assessment of evidence to provide an independent opinion or conclusions regarding an entity, operation, function, process, system or other subject matter. The nature and scope of the assurance engagement are **determined by Internal Audit**.

**Consulting engagements** are advisory in nature and are generally performed at the **specific request of management**. The nature and scope of consulting engagement are subject **to agreement with management** and should assist management in meeting the objectives of the organisation without undermining the key principles of independence and objectivity. Internal Audit should not assume management responsibility.

Consultancy engagements should only be performed where resources and skills exist and should focus on governance, risk and control – supporting the Head of Internal Audit annual opinion. They **should not** replace assurance engagements.

The Head of Internal Audit cannot give total assurance that control weaknesses or irregularities do not exist. Managers are fully responsible for the quality of internal control within their area of accountability. They should ensure that appropriate and adequate risk management, control systems, accounting records, financial processes and governance arrangements exist (the control environment), without depending on internal audit activity to identify weaknesses or control failures.

## Independence and Internal Audit's Position within the organisation

To provide for Internal Audit's independence, the Head of Internal Audit reports directly to the Audit Committee (The Board) and the Corporate Leadership Team and the Chief Executive.

The Head of Internal Audit has free and full access to the Chair of the Audit Committee.

If the independence or objectivity of the Internal Audit Service is impaired, details of the impairment should be disclosed to either the Section 151 Officer, or the Chair of the Audit Committee, dependent upon the nature of the impairment.

The Internal Audit Service is not authorised to perform any operational duties for the organisation; initiate or approve accounting transactions external to the Internal Audit Service; or direct the activities of any organisation employee not employed by the Internal Auditing Service, except to the extent such employees have been appropriately assigned to Service or to otherwise assist the Internal Auditor.

Where the Head of Internal Audit is responsible for delivery of operational functions other than Internal Audit. External assurance is sought on these - overseen by the Section 151 Officer.

It oversees internal audit and external audit, helping to ensure efficient and effective assurance arrangements are in place.

For the purposes of the UK Public Sector Internal Audit Standards the Audit Committee performs the role of the 'Board'. The Audit Committee complies with CIPFA best practice standards through their terms of reference and work programme.

The Audit Committee will:

- Approve the internal audit charter.
