## 1. Background

The NHS Long Term Plan and NHS Mental Health Implementation Plan set the ambition to transform the provision of community mental health care and to develop new and integrated models of primary and community mental health care.

Lincolnshire was carefully selected as one of 12 early implementer sites to lead transformation of community mental health services in England in partnership with Primary Care Networks, Clinical Commissioning Group, Local Authorities, the Voluntary Community and Social Enterprise Sector, service users, families, carers, and local communities themselves.

We were successful in securing further funding to rollout countywide and our findings will be used to inform the roll out of new models of integrated primary and community care at a national level.

## 2. Conclusion

The Lincolnshire Health and Wellbeing Board are asked to note the progress that has been made throughout the programme.

### 3. Joint Strategic Needs Assessment and Joint Health & Wellbeing Strategy

The Council and Clinical Commissioning Group must have regard to the Joint Strategic Needs Assessment and Joint Health and Wellbeing Strategy.

### 4. Consultation
