

Number of domestic abuse victims receiving support

This measure is a count of the number of victims of Domestic Abuse who have received support from any one of the domestic abuse support services (excluding refuge) commissioned by Lincolnshire County Council. Services include: Independent Domestic Violence Advisors (IDVAs), Outreach and targeted support for adults, children and young people in a directly abusive relationship and those children and young people within a family experiencing domestic abuse. The service is currently provided by Ending Domestic Abuse Now in Lincolnshire (EDAN Lincs). If a person has received support more than once in the period or by more than one part of the support service (i.e. an IDVA and Outreach) they will be counted more than once. This measure is reported with a one quarter lag.

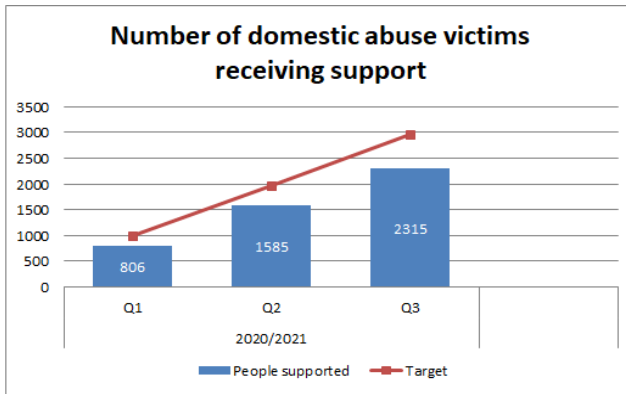

About the latest performance

Data is not available at present for Q3's measures. This is unlikely to change for this reporting period. Therefore figures could not be calculated to provide data for the total number of children, young people and adults supported.

The EDAN Lincs Outreach service has provided 'one off' advice and support to 615 people during Q3 2021-22 in response to telephone and online enquiries. The number of people supported is within expected range.

The Council has worked closely with the provider to support them through COVID 19 and other external issues that has impacted on demand and referral levels. It is likely that the next quarter's figures will stay within the same parameters as this quarter. There had been an increase in referrals recently due to an agency process change, however the impact of this is now at a consistent level and therefore we do not think there will be a further significant increase.

About the target

It is not appropriate to target this measure.

About the target range

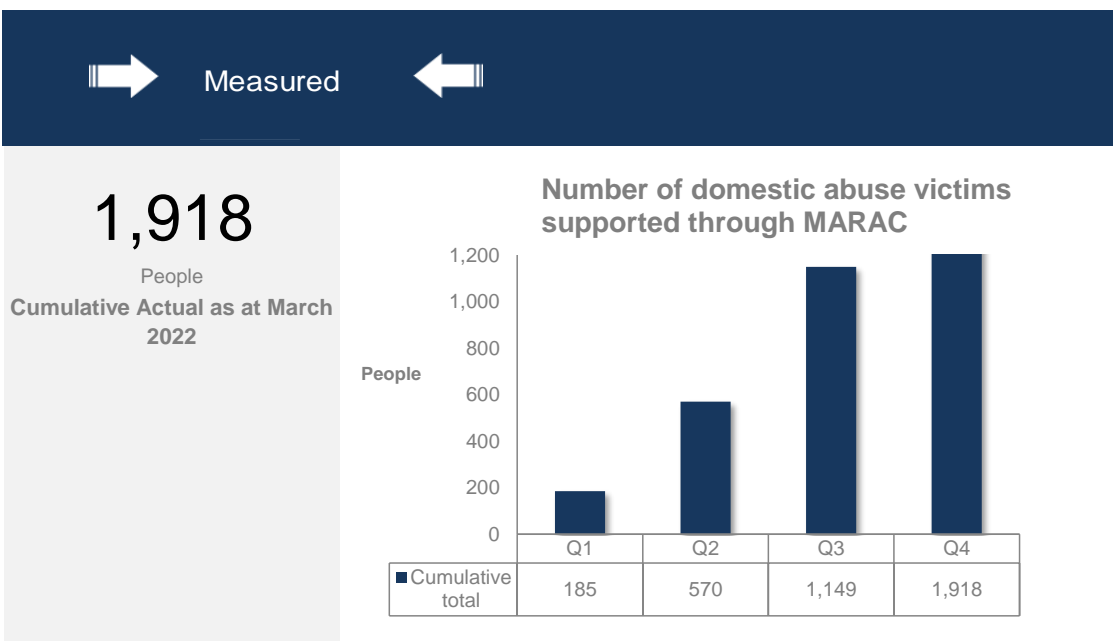

A target range is not applicable as this is a contextual measure.

About benchmarking

This measure is local to Lincolnshire and therefore is not benchmarked against any other area.

Number of domestic abuse victims supported through MARAC

A Multi-Agency Risk Assessment Conference (MARAC) is a meeting where information is shared on the highest risk domestic abuse cases between representatives of local police, health, child protection, housing practitioners, Independent Domestic Violence Advisors (IDVAs), probation and other specialists from the statutory and voluntary sectors. After sharing all relevant information they have about a victim, the representatives discuss options for increasing the safety of the victim and turn these into a co-ordinated action plan. The primary focus of the MARAC is to safeguard the adult victim. This measure is a count of the number of new victims supported through the Multi-Agency Risk Assessment Conference.

About the latest performance

MARAC continues to operate on a weekly basis with all partners engaged in the process. The MARAC is currently operating virtually and regular monitoring of data and the process is in place. The number of clients reported here are new in the period and do not include repeats. The total number of repeat clients to MARAC in Q4 2021/22 was 65, meaning that an additional 65 clients were supported through MARAC.

The council has supported the MARAC process, made operational changes where necessary in order to respond to COVID 19, demand levels. MARAC has been successful in operating a full response throughout the COVID 19 pandemic.
