LET'S MOVE LINCOLNSHIRE – DELIVERY MODEL

Page 2

EXECUTIVE OVERSIGHT GROUP

Recover and Reinvent

Creating Positive Experiences for Children & Young People

Connected Communities

Connecting with Health & Wellbeing

Active Environments

Agile Systems

GUIDING PRINCIPLES WORKING GROUPS

COMMUNICATIONS: Cross-Agency collaboration for shared learning and promotion of message and opportunities

EQUALITY, DIVERSITY AND INCLUSION: Steering Group to support strands work. Safeguarding sits here.

INSIGHT / EVALUATION – SHARE MEASURES: Steering Group to support strands work AND design long-term evaluation of the impact of the strategy and our approach to delivering it on system and individuals

NATIONAL ALIGNMENT WITH LOCAL NEED ACROSS 6 STRANDS

RECOVER AND REINVENT

Focuses on the organised sport and physical activity sector. Helping it to design and deliver inclusive experiences based on better understanding the needs of local people.

This strand includes creating a representative workforce, and building agile and resilient organisations.

POSITIVE EXPERIENCES FOR CHILDREN & YOUNG PEOPLE

Ensuring every child and young person experiences the enjoyment and benefits that being active can bring. Their needs, expectations, and safety should come first in the design and delivery of activity.

Focus on education settings, parent/carers roles and digital as key influencers and enablers.

CONNECTED COMMUNITIES

Utilising the power of physical activity to create a great place to live, work and learn.

Physical activity is used as a versatile tool to grow the local economy, integrate groups, reduce public expenditure, build individual confidence and self-worth and respond to big issues like climate change, net zero and tackling inequalities.

CONNECTING WITH HEALTH & WELLBEING

Responding to changing trends in health and demographics.

Working with the health sector to develop collaborations and connections that ensure people with more challenging health needs get the extra support and provision to find new and different ways to take part.

ACTIVE ENVIRONMENTS

This strand looks at dedicated sports facilities, other community spaces (parks, villages halls, schools), and wider built environment, (streets, squares, footpaths, cycle paths) to ensure that they all provide positive influences to support the ability to lead active lives.

AGILE SYSTEMS (Lincolnshire specific)

Stakeholders identified a need to focus on system effectiveness and management between organisations, conceiving new structures that are sustainable and meaningfully connected to lead to countywide collaborative endeavours and a systematic approach to problem solving complex issues across Lincolnshire.

PROGRESS ACROSS 6 STRANDS

RECOVER AND REINVENT – Sport and physical activity sector

- Together Fund investment £237k
- Let's Move Lincolnshire website & activity finder
- [Sport and Physical Activity Awards](#)
- [LORIC report into sector size and needs](#)
